

The world's most innovative and exciting 'build your own boat' concept!

Flat Out Afloat involves teams engineering, constructing and racing a boat from cardboard! Teams have to use some unlikely building materials and combine their individual talents to build a seaworthy vessel.

Using the detailed engineering plans provided successful teams divide up roles and responsibilities across the project team. The impressive finale has the boats racing each other each with two paddlers aboard.

Flat Out Afloat

Venue:
Outdoor

Duration:
2 - 3 Hours

Min Participants:
12

Max Participants:
300

Team Size:
8 - 12 Participants per Team

Business Benefits:

- Creates Brand Awareness
- High Energy
- Promotes Problem Solving
