

A unique, fast moving, high energy, multi-faceted competitive corporate team loosely based on a "Survivor" theme.

In this game, teams or tribes must complete (and compete in) a variety of tasks and challenges around the venue, planning and coordinating their group and resources carefully.

The objective is to score as many points for your tribe as possible. Challenges can be as physically demanding (or not!) as the client chooses from jungle trekking, blowpipes to intense team problem solving.

Team Survival is a unique, fast moving, high energy, multi-faceted, competitive corporate team activity loosely based on "Survivor."
